Omega Boy and Mighty Boy Destination: SAFE

Enter the Blaze highlights the symptoms he and other children with diabetes experience everyday.

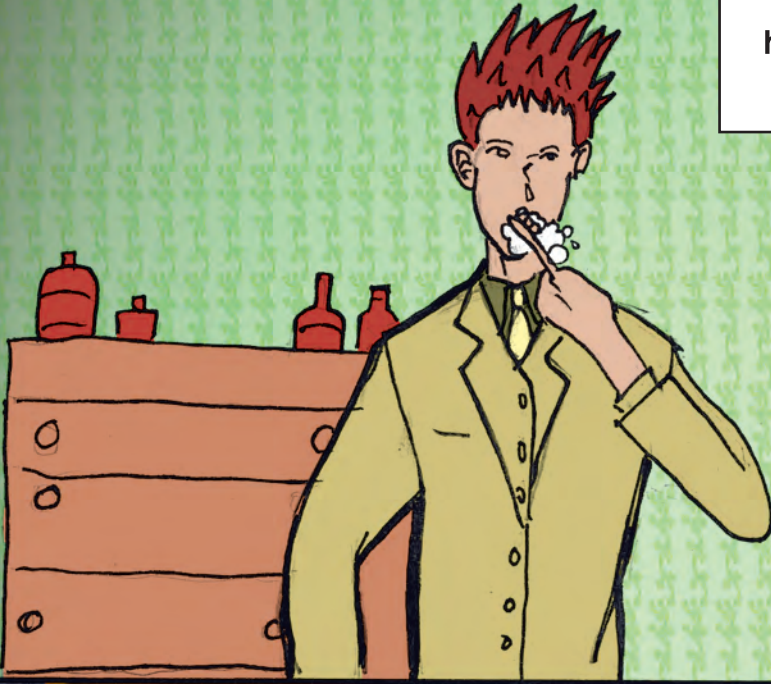

Illustrators: Kamaal and Malcolm Washington

Writer: Alonzo L. Washington • Editor: Dana D. Washington

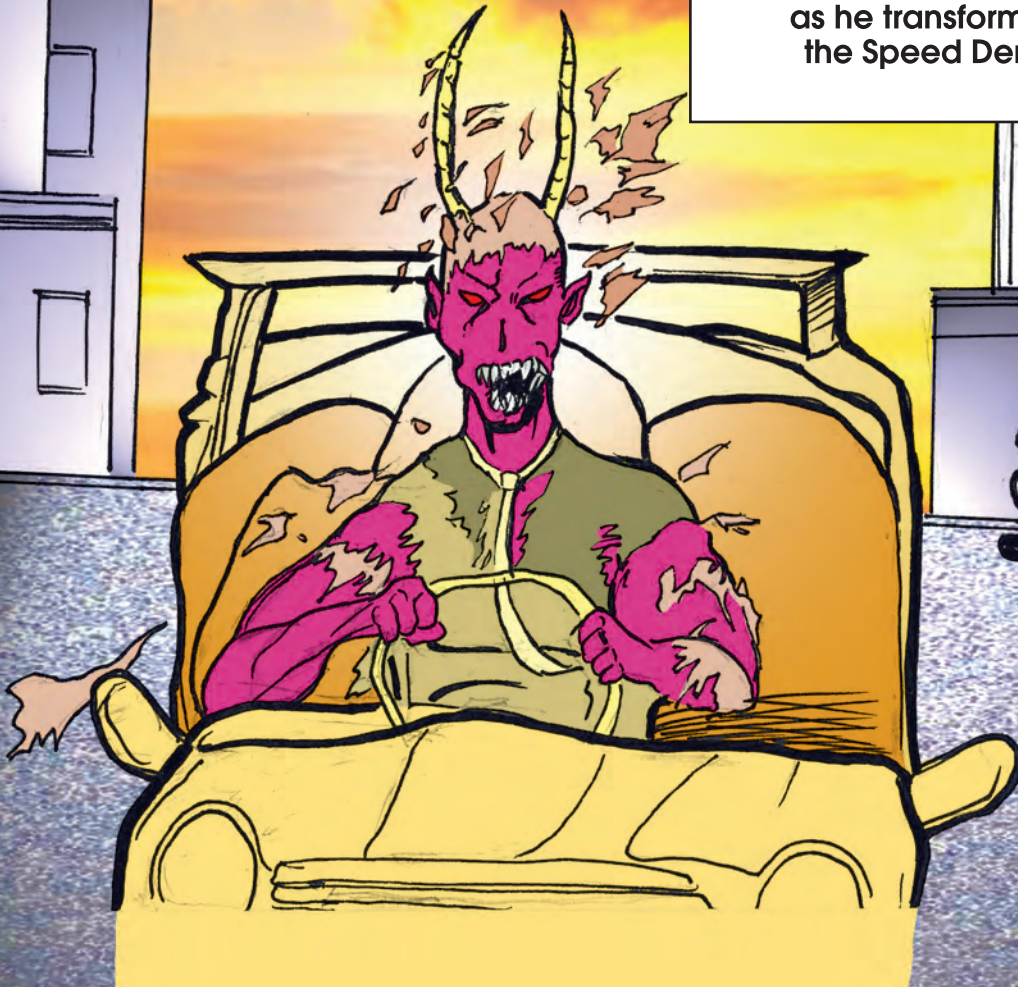

Inker: Johnnie Johnson • Colorist and Typography: Gary Scott Beatty

As Stan Mildmanner
starts his day,
he is calm and collected
in a peaceful way.

He enters his car and
his blood starts steaming,
as he transforms into
the Speed Demon!

Speed Demon takes the wheel and does everything fast.
He is an unbelted and aggressive driver who's safety won't last.
When he drives it is as if he is blind, as he ignores every single traffic sign.

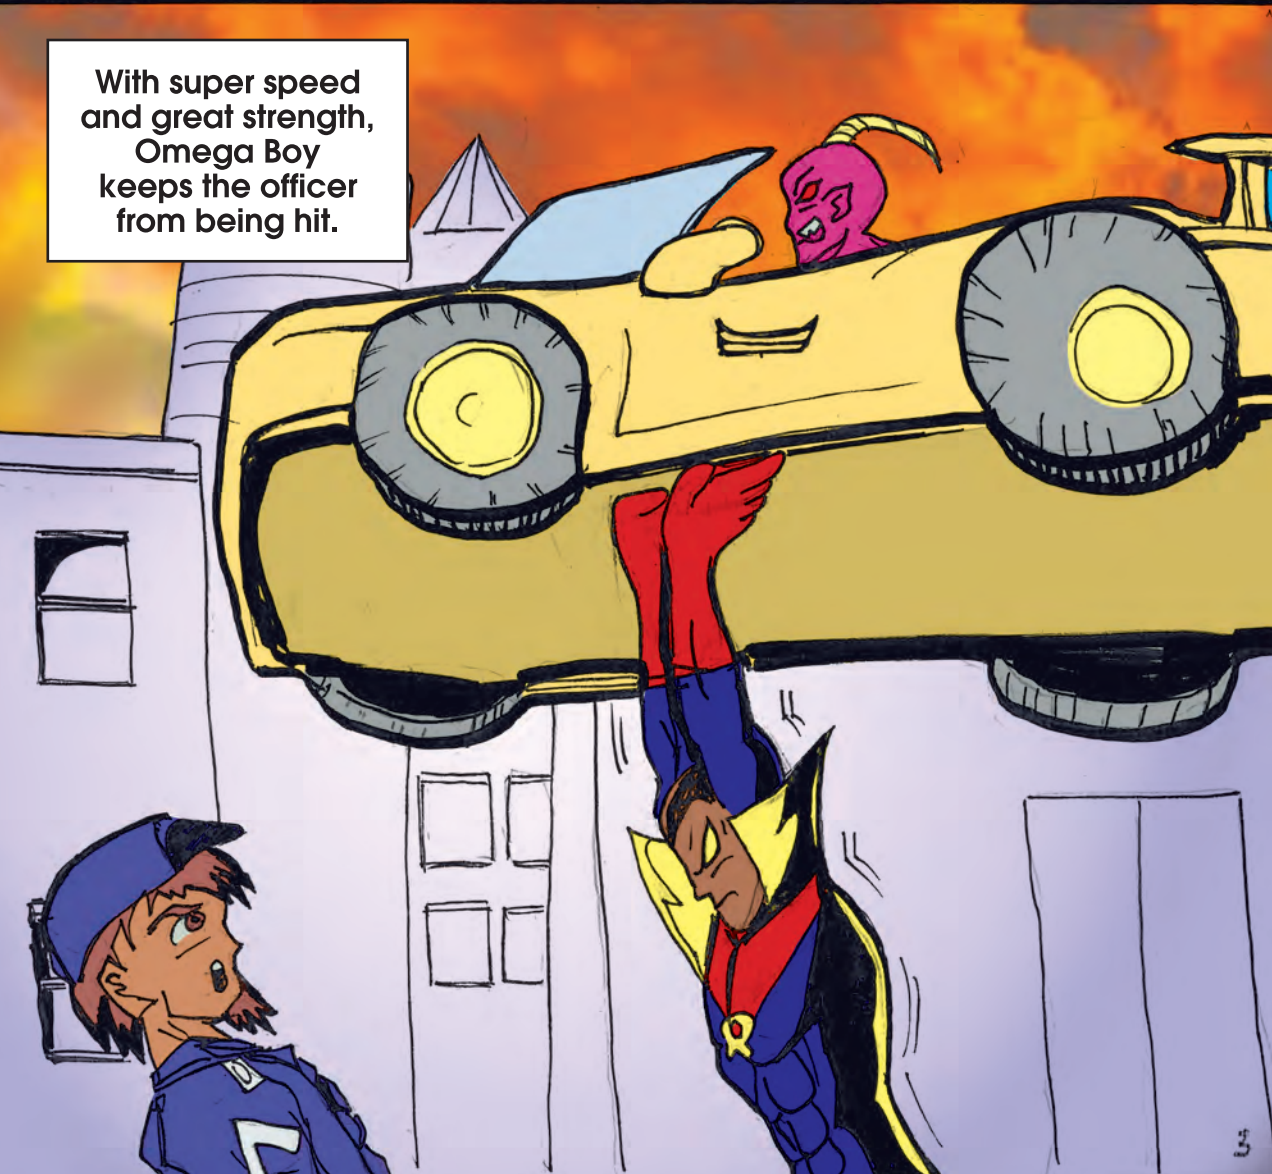

High in the sky there is a
boy hero who can see,
that if he doesn't act fast
there will be a fatality.
With that decision made,
there is nothing left to do,
so it's **OMEGA BOY**
TO THE RESCUE!!!

Speed Demon drives down the street with his blood boiling hot,
while there is a cop in the street making a traffic stop.
It is as if the speedster has gone insane.
He continues to drive without changing lanes.
Speed Demon has made a dangerous flaw.
If you see an officer on the side of the road, MOVE OVER! It's the law!

With super speed
and great strength,
Omega Boy
keeps the officer
from being hit.

Meanwhile, back at the stop sign Mighty Boy arrives, to teach the children rules about how to drive.

Hi Kids, what you just saw was the Speed Demon driving.
If he would have had a wreck,
he would have had little chances of surviving.

He was driving
in a way that was
bad for your health.
He was speeding
down the street
without a seat belt.

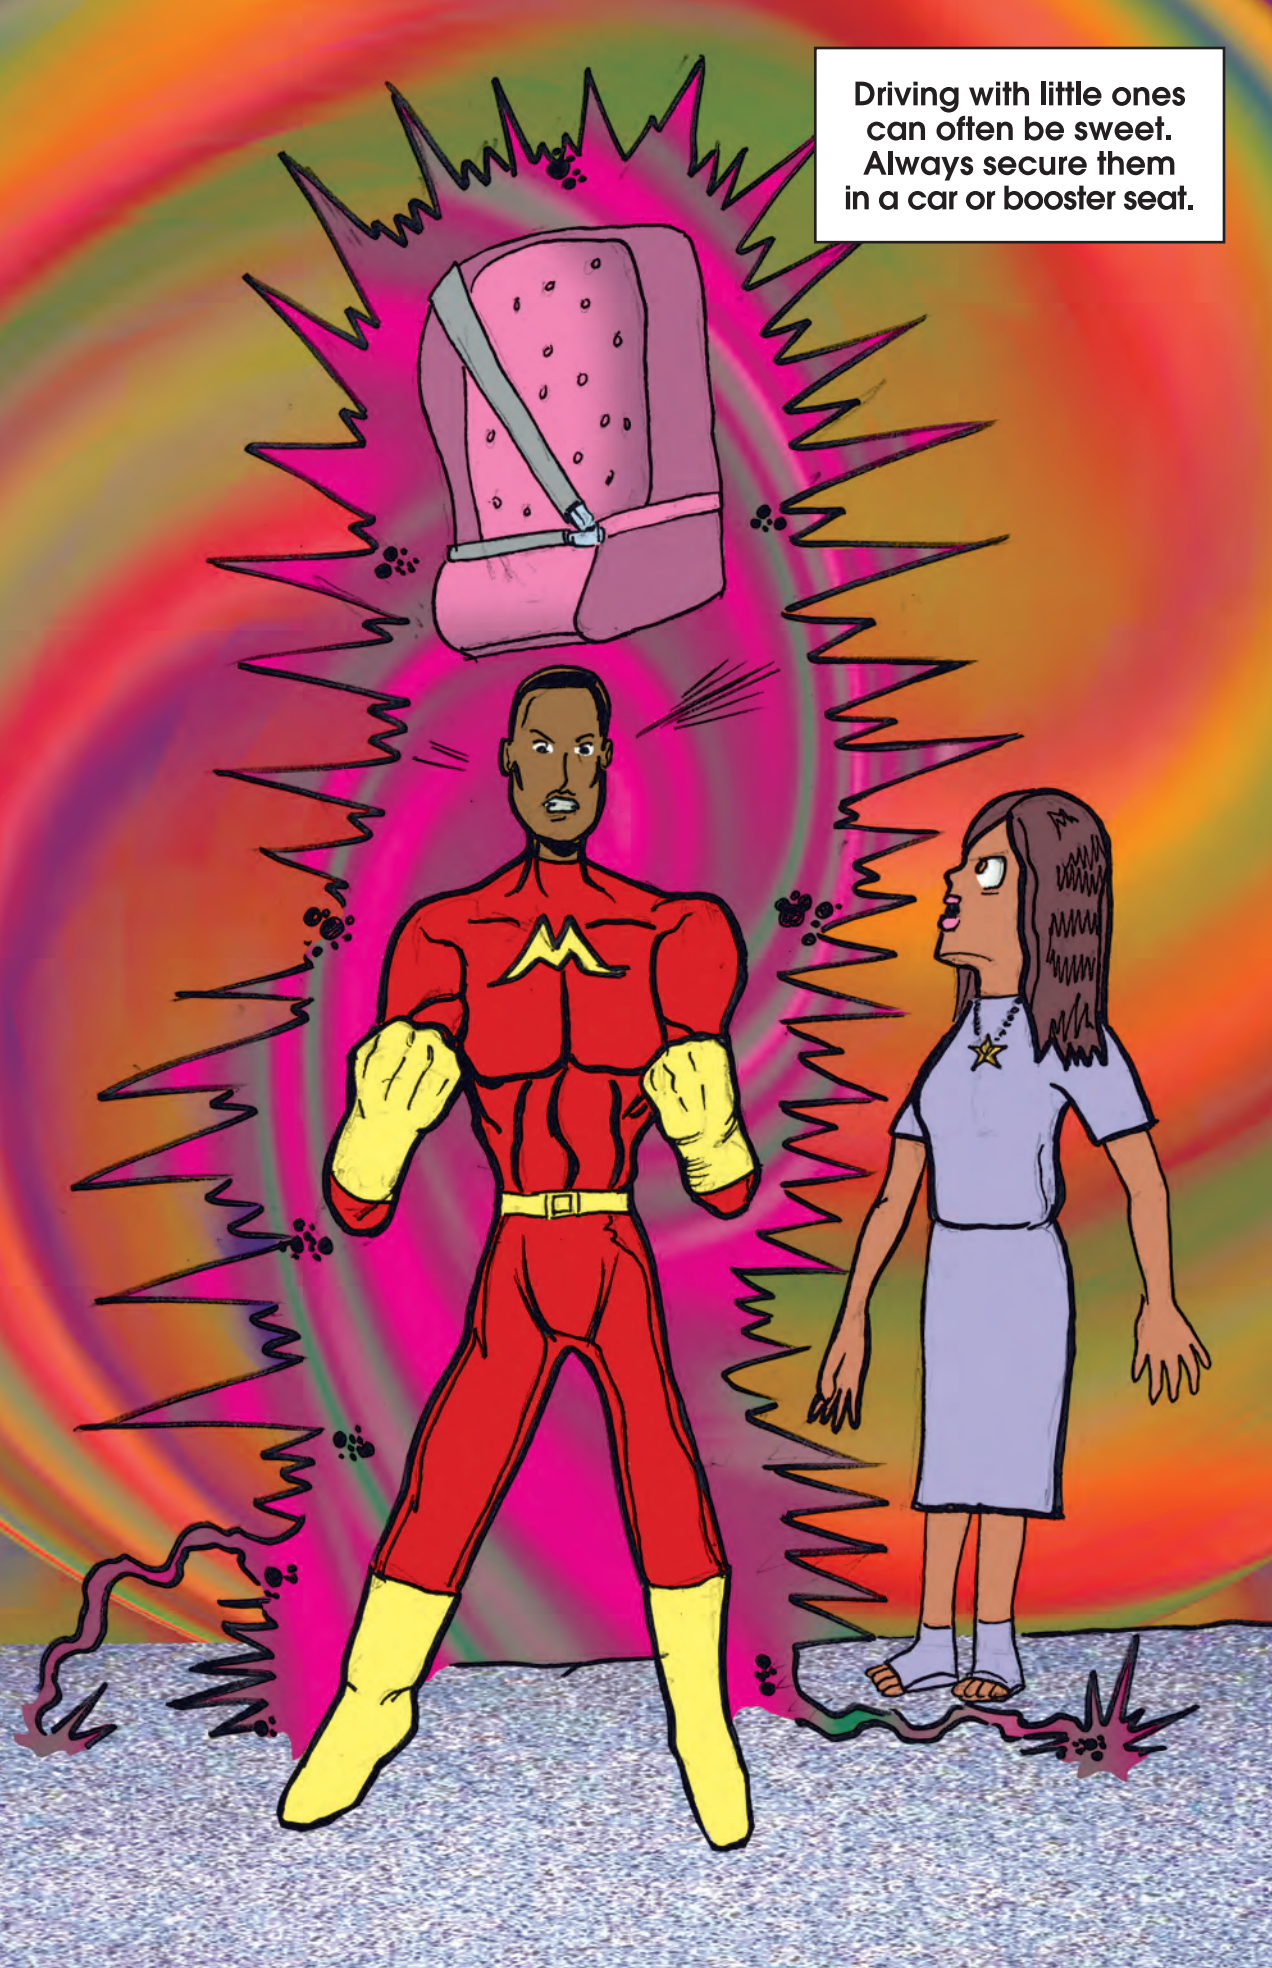

Here are a few more rules that should lead to no fusses.
Always stop for stop signs, traffic lights and even school busses.

Here's another tip
that will prevent your downfall.
Never drive under the influence
of drugs and alcohol.

Driving with little ones
can often be sweet.
Always secure them
in a car or booster seat.

Meanwhile, Omega Boy is engaged in a fight to calm down Speed Demon with all his might.

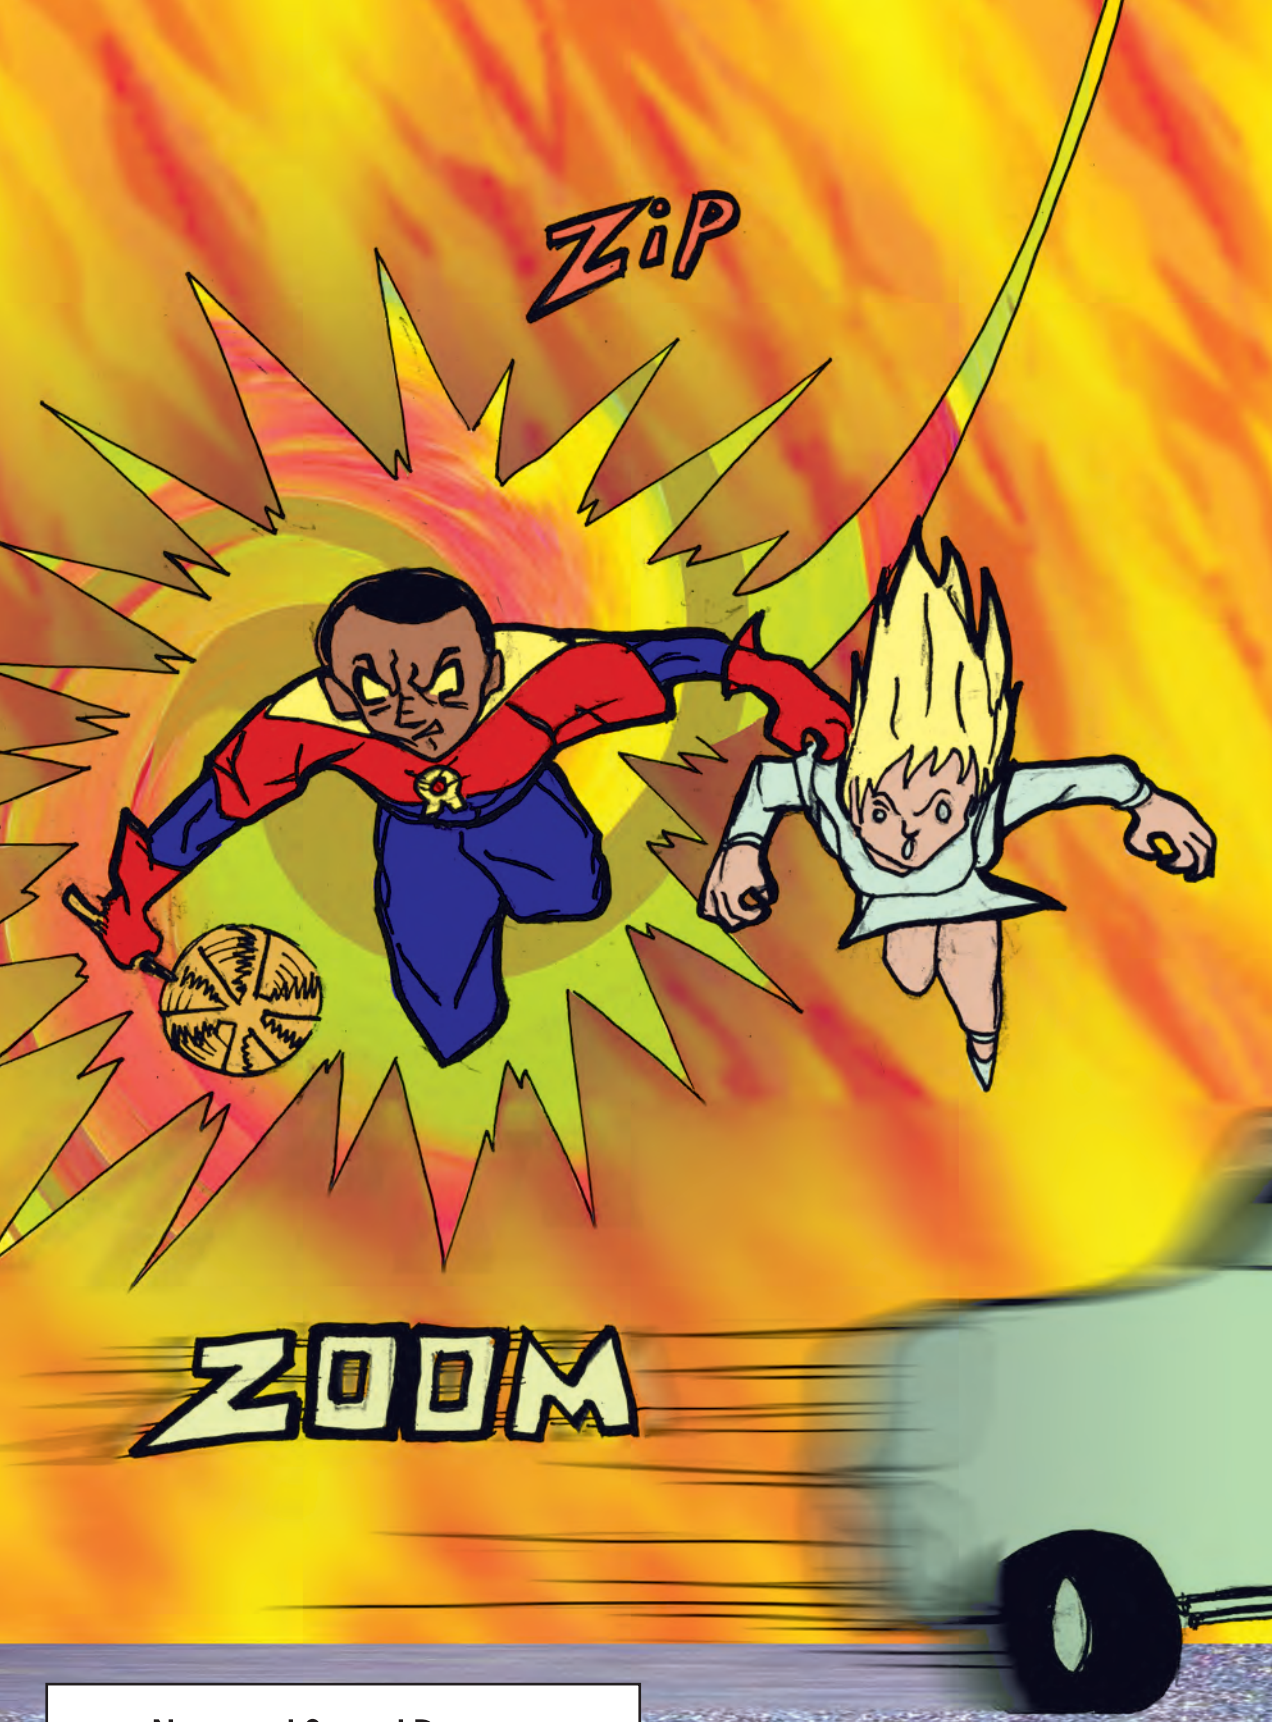

Omega Boy,
you can't stop me.
Our battle is
not over by far.
I can influence
most people
whenever they step
into a car.

Look down the street.
With my influence alone,
I have a woman doing 70 miles per hour
in a school zone.

No sweat Speed Demon.
That's not too far away
for Omega Boy to save the day!
The golden rule is that pedestrians
always have the right of way.

Heads up Speed Demon.
You did not have me in your sights.
Mighty Boy is here to join the fight.

CRACK

Two against one, the odds are in our favor. It's up to Mighty Boy and Omega Boy to stop your illegal behavior.

TRIP

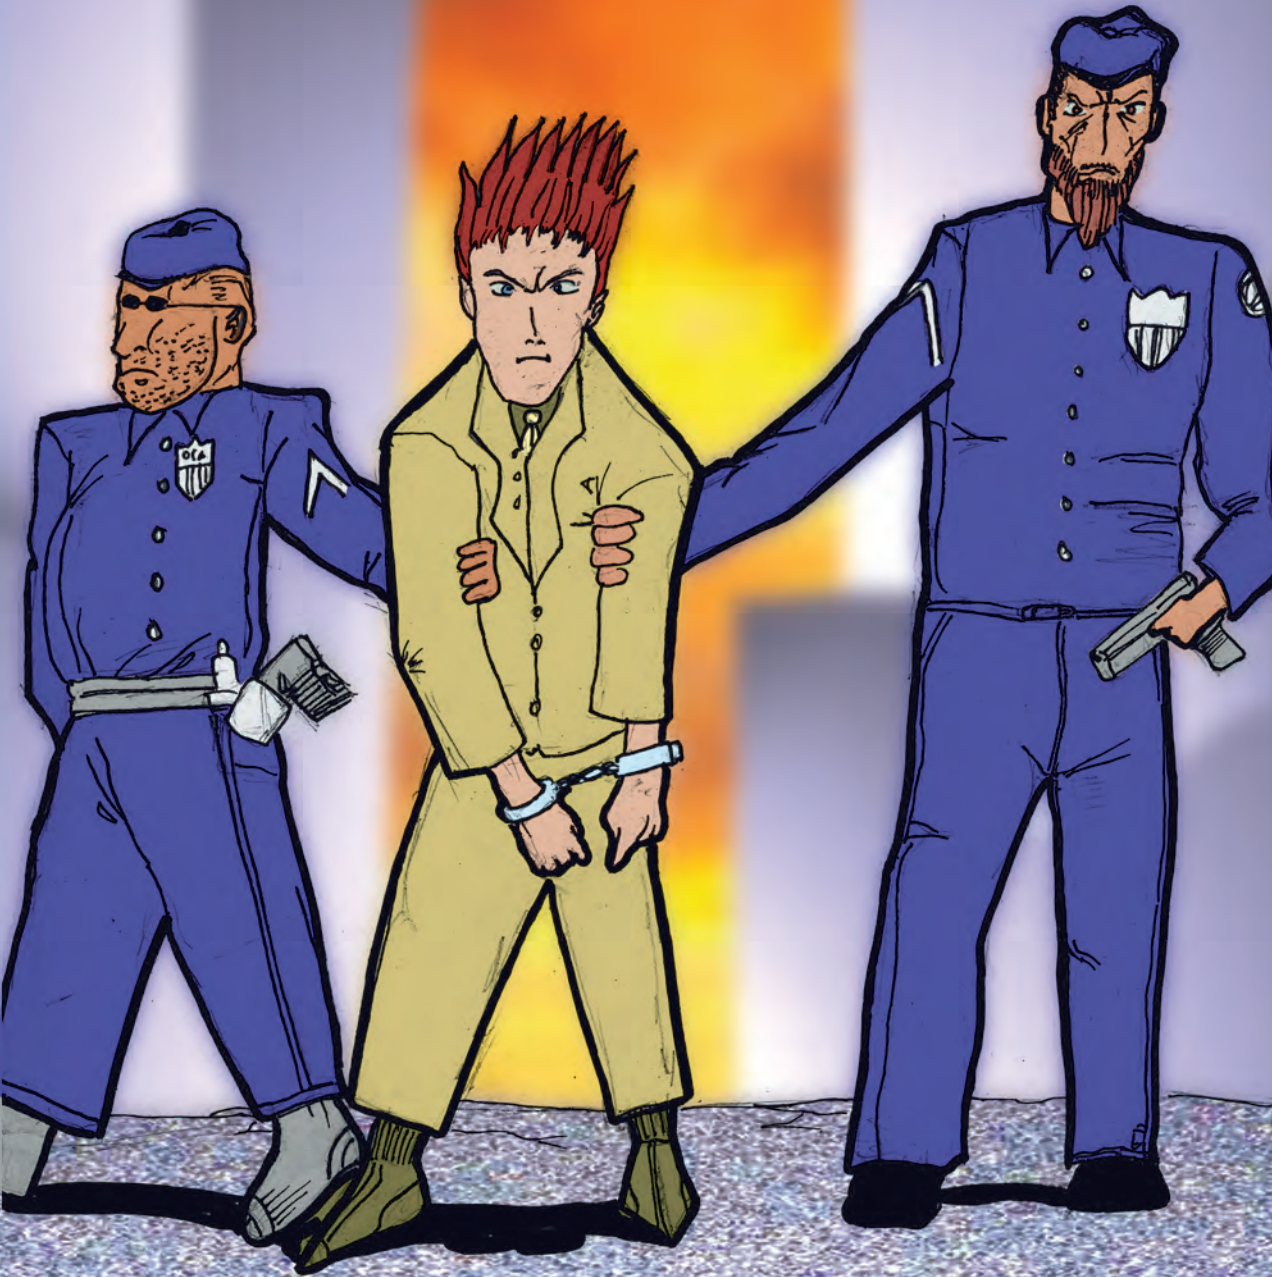

After the blows are thrown with threatening banter.
Speed Demon turns back into Stan Mildmanner.

I am
so ashamed.
I don't know what
came over me.
Whenever I get
into a car
I feel a
need to speed.

If obeying traffic laws are something you fail,
expect to be ticketed or to find yourself in jail.

When driving think safety first because law enforcement is always patrolling.
Here are some traffic tips to keep you safe and from riding illegally.

- Wear your seat belt whenever you ride in any vehicle.
- Don't drink and drive.
- Don't drive aggressively
- Be a defensive driver.
- Obey all traffic lights and signs.
- Give pedestrians the right of way.
- Stop for school buses.
- Switch lanes when you see a law enforcement officer making a traffic stop.
- Don't drive over the speed limit.
- Look both ways before you cross the street.
- Children and infants should ride in car and booster seats.
